The Dream

**Every Doctor Starts With A Dream
Medicine is more than a profession**

It is a calling built on knowledge,
compassion, and service.

At PLTCI College of Medicine, students are guided through a journey that transforms ambition into competence and future physicians into healthcare leaders.

Medicine is more than earning a degree.
It is about becoming a competent,
compassionate, and confident doctor

Why Families Choose PLTCI

Medical education is most effective when
theory meets practice. At PLTCI, students gain
exposure to clinical environments that help
bridge the gap between academic learning
and patient care.

**Strong Academic
Foundations**

**English-medium
instruction**

**Clinical Skill
Development**

**Case-Based
Learning**

**Patient Communication
Training**

**Clinical
Discussions**

**Student-centered
learning**

Student Success & FMGE PERFORMANCE

A strong medical education is measured by the success of its students. Turning Medical Students Into Doctors

PLTCI supports students through

Faculty Mentorship

Academic Monitoring

FMGE-Oriented Support

Clinical-Based Learning

Continuous Assessments

Proud FMGE Achievers

"With a NEET score of 153, I had concerns about studying MBBS abroad, especially regarding education quality and clinical exposure. My journey at PLTCI helped me build a strong academic foundation, while my experience at our base hospital R2TMC provided valuable hands-on learning, improving my confidence and preparing me effectively for FMGE scoring the batch first mark or 208"

Dr. Deepika Puroshatham

NEET SCORE

155

The achievements of PLTCI graduates continue to inspire future medical students pursuing their dreams of becoming doctors.

Every Success Story Represents A Future Doctor In The Making.
